

Shea-Lynn's
Butterfly Effect

SEAT BELT SAFETY PLEDGE

I understand the importance of wearing a seat belt. When worn properly, it is the best way to keep me and others in the vehicle safe in the event of a crash. Because of this:

- I commit to wearing my seatbelt properly with my shoulder strap across the center of my chest and over my shoulder and the lap belt snugly across my hips.
- I commit to ALWAYS wearing my seat belt no matter where I am sitting, how far I am travelling, how fast we are going, or how close to home I am. My well-being is more important than any excuse for not wearing my seat belt.
- I commit to making sure everyone else in the vehicle is also buckled up, every single trip, EVERY TIME, THE WHOLE TIME, even if the laws state that they are of an age where they are responsible for their own safety.
- If I notice someone not wearing a seat belt, I commit to speaking up. Every life matters. Everyone needs to get home safely. My voice can make a difference.
- As a driver, I commit to only carrying as many passengers as there are seat belts. I will not move the vehicle until everyone is safely secured.
- As a parent, I commit to being a role model and making safe driver/passenger choices.
- As a parent, I commit to always using the proper child restraint systems.
- As a parent, I commit to setting clear expectations about seat belt use and helping my teenager(s) problem-solve to address situations where they might experience resistance.
- As an employer, I commit to ensuring that seat belt safety is a part of our organizational culture and orientation process.
- As a member of the community, I commit to helping to save lives by spreading seat belt awareness. I will encourage others to #BuckleUp4Shea.

Additional Safety Measures:

- I understand that driving comes with great responsibility. Tomorrow is not promised, but it is impacted by the choices I make today. I commit to making safe driving choices and avoiding unnecessary risks, such as not wearing a seat belt, driving impaired, or driving distracted.
